

Ultraviolet. Ultra-fine. Ultra-safe.

Introducing A. O. Smith's new X2 UV Water Purifier.

Features:

- UV + UF technology ensures double protection
- Sleek and compact design
- Dual colour body design
- Advance digital display
- 5 litre storage tank

5 stage purification process. For water purified 5 times over.

Sediment Filter

1 The Sediment Filter is used to remove physical contaminants such as dirt, dust, soil particles, and turbidity present in the water. This improves the life of the Fine Sediment Filter.

Fine Sediment Filter

2 The Fine Sediment Filter is used to remove fine and coarse physical contaminants present in the water. This improves the life of the Carbon Block.

Carbon Block

3 The Carbon Block with high adsorption capacity reduces harmful chemicals including pesticides, volatile organic compounds, residual chlorine, etc., from the water. It also adsorbs bad taste and odour causing organic compounds from water.

UV Lamp

4 In this stage, water is passed through UV housing wherein UV rays disinfects the water by eliminating water-borne disease-causing microorganisms like bacteria and virus, making it healthy for drinking.

UF (Ultra Fine) Filter

5 In this stage, water is passed through an Ultra Fine Filter where it removes deactivated microbial cells and cysts.

Specifications

Main Technology		UV + UF
Convenience Feature	Storage Tank	5 Ltrs
	Water Dispensing Type	Faucet
	Mounting Options	Wall
	Display	Digital
Specification	Dimension (H x D x W) in mm	460 x 260 x 380
	Pressure rating in psi	5 ~ 30
	Input Voltage in watt	150 ~ 300V AC / 50 Hz
	Power rating (Max)	36
	UV lamp power	11 watt
	Water flow rate	30 LPH (@25 psi feed pressure)
	Storage Tank Material	Food Grade
Power Of 1#	1 Hour Response	✓
	1 Day Resolution	
	1 Time Fix	

Work with TDS <200ppm and Hardness 120ppm only. | #For calls registered at A. O. Smith call centre before 4pm only. Available only in selected cities.
